5. **Discussion Item**

Connecting Texas 2050 ([Presentation](#))

Connecting Texas 2050 is the update to Texas' Statewide Long-Range Transportation Plan, which serves as TxDOT's cornerstone multimodal transportation planning document. It supersedes the previous long-range plan, Texas Transportation Plan 2050, adopted in August 2020. Connecting Texas 2050 is a stakeholder informed plan that identifies transportation needs and opportunities in collaboration with TxDOT districts, divisions, and advisory committees, as well as other transportation partners and the public. The plan details strategies to address the proposed Connecting Texas 2050 long-range transportation goals of safety, preservation, mobility, connectivity, economic vitality, and stewardship. Staff will provide an overview of the planning process and plan contents.

6. **Promulgation of Administrative Rules** Under Title 43, Texas Administrative Code, and the Administrative Procedure Act, Government Code, Chapter 2001:

a. **Rules Review**

Consider the re-adoption of Title 43 Texas Administrative Code Chapter 1, Management, Chapter 5, Finance, Chapter 11, Design, Chapter 15, Financing and Construction of Transportation Projects, Chapter 21, Right of Way, and Chapter 27 Toll Projects, in accordance with Government Code, §2001.039 ([MO](#))
State law requires a state agency to review each of its rules every four years to consider whether the reason for adopting the rule continues to exist. The department reviews its rules on a rotating basis. The department has determined that the reason for adopting the rules in these chapters continues to exist and that they should be re-adopted.

b. **Rule Adoptions**

(1) **Chapter 7 - Rail Facilities**

The repeal of §§7.82, 7.83, and 7.86, enactment of new §§7.82, 7.83, and 7.86, and amendments to §§7.80, 7.84-7.85, 7.87-7.95, all concerning the Rail Fixed Guideway System State Safety Oversight Program ([MO](#))

The proposed amendments incorporate required federal Infrastructure Investment and Jobs Act program elements into the state safety oversight program standard, including risk-based inspections, rail agency safety committees, training requirements, and public transportation agency safety plan content.

(2) **Chapter 9 - Contract and Grant Management**

Amendments to §§9.11-9.12, §§9.15-9.18, §§9.23-9.25, and §9.27 concerning contracts for highway projects ([MO](#))

This minute order amends department rules necessary to implement Senate Bill 1021, 88th Legislature, 2023, Regular Session, which allows bids on projects with an engineer's estimate of less than \$1 million to be opened and contracts awarded by the district engineer for highway improvement or the support services division director for building construction. Additional amendments increase the threshold for projects where the highest level of bidder qualification may be waived, increase the minimum bidding capacities granted for the differing levels of bidder qualification, remove the requirement for bids opened at the state level to be read publicly, update Performance Review Committee rules regarding affiliates and appeal of remedial action, and align the rules with current business practices.

(3) **Chapter 31 - Public Transportation**

Amendments to §§31.11 and 31.13 concerning state funding programs ([MO](#))

The proposed amendments revise state funding allocations of public transportation grant program funding to transit districts serving rural, small urban, and large urban areas. Amendments address 2020 Census changes to population and area designations throughout the state and incorporate increased appropriations from the 88th Legislature.
